

UK Church Growth – Key Insights & Action Plan (Concise) INSIGHTS • Young adults (18–24) are the most responsive group: UK monthly attendance rose from ~4% to ~16% since 2018. • Growth in UK churches is strongly driven by ethnic diversity, especially Black African/Caribbean and other minority communities. • High-traction churches (e.g. Holy Trinity Brompton, Jesus House, Ruach City Church, KICC, Hillsong UK) share patterns: – Clear pathway: explore faith course (e.g. Alpha) → small groups → serving. – Strong digital presence: website, livestream, social media. – Multicultural worship and leadership; services reflect multiple cultures and generations. – Social action and community support are central (foodbanks, youth work, immigration and housing help). • People exploring Christianity usually start with Google/search, but the local church and the Bible are almost as important. • New churches in the UK typically start small (~20–30 people) but can double over 3–5 years with clear pathways and consistent hospitality.

NEXT STEPS FOR THE NEW CHURCH Cross-cutting (all ages) 1. Visibility & digital funnel – Launch a simple site and active social media (IG, TikTok/YouTube shorts). – “New here?” page with clear invite to a foundations/Alpha-style course. – KPI (Year 1): 500 local site visits; half of first-time visitors say they found you online. 2. Multicultural hospitality – Diverse welcome team; refreshments after every service; include visible ethnic diversity on stage. – KPI (Year 1): newcomer retention ≥50% after three visits; welcome/hosting team ≥20% of regulars. 3. Discipleship pathway – Run 2–3 intro-to-faith courses per year; invite graduates into small groups and then serving teams. – KPI (Year 2): ≥60% of course participants join a small group; ≥30% of small-group members serving. By age segment 4. Youth (11–17) – Monthly youth night with high-energy worship, games and short teaching; link with schools where possible. – Give teens clear roles (band, media, kids’ helpers). – KPI (Year 3): 25+ regular teens; 5–8 youth baptisms/confirmations. 5. Young adults (18–30) – Contextualised Alpha-style course around big questions (purpose, anxiety, justice) in relaxed venues. – Young-adult small groups and regular social-action projects. – KPI (Year 3): 40+ regular 18–30s, majority in small groups and serving. 6. Adults (31–50) – Family-friendly Sundays (strong kids’ work) plus marriage, parenting and money courses. – Build a leadership and giving base from this group. – KPI (Year 3): 35–40 committed adults 31–50; core budget covered by regular giving. 7. Older adults (50+) – Blend some traditional elements into worship; mid-week daytime group and pastoral care. – Encourage roles in prayer, mentoring and hospitality. – KPI (Year 3): 15–20 older adults, most involved in some serving or mentoring role. Overall 3-year church targets • Attendance: grow from ~30 to 80–100 regular attenders. • Diversity: no single ethnic group >60% of the congregation; at least three major ethnic groups represented in leadership. • Engagement: ≥65% in small groups; ≥50% serving; 8–12 baptisms/confirmations per year.
